

THE SMUGGLER 570 STING is a well-finished family-friendly trailerboat that benefits from Smuggler Marine's meticulous attention to detail. With a proven, soft-riding hull, the boat offers safe, predictable handling, is a dry runner and goes well with a range of horsepower, from 90hp to 150hp. The 115hp Evinrude E-Tec fitted to the review boat offered crisp throttle response and plenty of top-end performance.

The cockpit is roomy, especially with pedestal seats, and the new cockpit liner is a worthwhile improvement. A portable toilet and full-length bunks add to the boat's family appeal. – JE

The Smuggler's removable two-tier bait station features bait or tackle storage in a PVC locker underneath a foldaway PVC baitboard. Stainless rod and drink holders are also incorporated
