

Smuggler Strata 800 Centre Console

INFORMATION

The Smuggler Strata 800 Centre Console combines the proven 27 degree Smuggler hull with Amphibious technology, bringing you a superior engineered amphibious RIB. This is a serious, capable, soft riding hull, with 250 litres fuel capacity, and many options to suit your needs. Getting on and off the beach is no longer a drama, no trailer, no tractor - just up and go. The wheels retract behind specially designed D-tubes aft and into a recessed bow, completely hidden from sight. The Centre Console allows free movement around the console for fishing or socialising, with the option of removable side curtains for weather protection behind the helm station. **Experience excellence!**
